

Mobile Phones in Pre-School

We are writing to kindly ask for your cooperation regarding **mobile phone use** during pick-up and drop-off times.

Collection time is a vital part of your child's preschool day. It is an opportunity for staff to share daily updates with you and, most importantly, a moment your child has been eagerly anticipating all day.

To support our community, we ask that you put your phone away before entering the premises for the following reasons:

- **Child Safety:** Staff need your full attention to hand over children safely and securely.
- **Crucial Communication:** Handover time allows staff to relay important updates about your child's day.
- **Emotional Connection:** Children are excited to see you and need your eye contact and engagement.
- **Safeguarding Compliance:** Minimising visible devices helps us protect the privacy of all children in the setting.

Please ensure all calls are finished and your phone is put away in your bag or pocket before you reach the door.

Thank you for helping us create a focused, safe, and welcoming environment for our children.
